Summary

Software Engineer with 2+ years of experience building Java-based backend systems using Spring Boot, microservices, and Kafka. Experienced in distributed systems, performance optimization, cloud deployments, and AI-powered developer productivity tools.

Education

Ajay Kumar Garg Engineering College **Aug 2020 – Jul 2024**
B.Tech in Computer Science ***(8.9 CGPA)*** | ***Graduated with Honours*** *Ghaziabad, Uttar Pradesh*

Experience

Accenture **Jul 2024 – Present**
Software Engineer *Pune, Maharashtra*

- Developed and enhanced **3 Spring Boot microservices** and **30+ REST APIs** for a UK banking client's business and corporate card servicing platform, integrating backend services with Oracle Database.
- Implemented backend business logic and **React** frontend features, securing REST endpoints using **Spring Security, JWT, OAuth2, and mTLS**.
- Implemented **Apache Kafka producers and consumers** for asynchronous inter-service communication, enabling decoupled message processing across microservices.
- Investigated and resolved production defects through application log analysis and backend debugging; optimized **Oracle SQL queries, joins, and indexing**.
- Analyzed **VPT results** to identify performance bottlenecks; optimized **3-4 REST APIs** by resolving N+1 queries, reducing unnecessary database calls, and implementing caching, bringing response times from **500+ ms to under 300 ms**.
- Configured and troubleshot application deployments on **OpenShift** using Docker, GitLab CI, and Jenkins; developed JUnit and Mockito tests, maintaining **85%+ code coverage reported through SonarQube**.
- Built **AI-powered productivity tools** including an **API Comparator** and **DraftFlow**, automating documentation, presentations, website, and backend code generation.

Newgen Software **Jan 2024 – Jun 2024**
Software Engineer Intern *Noida, Uttar Pradesh*

- Migrated legacy **Servlet-based APIs to Java Spring Boot** for a banking client, modernizing backend services.
- Investigated and resolved production defects involving **SQL, PL/SQL, and database issues**.
- Worked on **Newgen iForm** and designed REST APIs following OpenAPI standards for service integration.
- Contributed to monolith-to-microservices migration, improving response time by **25%**, and supported AWS-based deployments.

Projects

MediShop | *Java, Spring Boot, React, MySQL, AWS, Docker, Kafka, Generative AI* | GitHub

- Built a distributed medical e-commerce platform with **2 Spring Boot microservices** exposing **20+ REST APIs**.
- Implemented **Spring Cloud Gateway**, **Eureka**, **Config Server**, **JWT authentication**, and **Redis caching**.
- Integrated **Kafka** for event-driven communication and automated deployments using Docker and GitHub Actions CI/CD.

SpecIt | *Java, Spring Boot, React, PostgreSQL, Docker, AI APIs*

- Engineered an **AI-powered spec-driven development platform** that converts feature specifications into structured execution plans and parallelizable subtasks.
- Designed a multi-stage workflow (**Spec → Plan → Tasks**) to automate feature breakdown, task generation, and development planning.
- Built reusable AI skills/prompts and implemented task orchestration, REST APIs, and persistence using **Spring Boot, PostgreSQL, and Docker**.

Technical Skills

Languages: Java, C++, JavaScript, SQL, Python
Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate
Architecture: Microservices, Distributed Systems, Kafka, Redis, REST APIs, OpenAPI, Swagger, Design Patterns, LLD/HLD
Cloud & DevOps: AWS, Docker, Kubernetes, OpenShift, Git, GitLab, GitHub Actions, Jenkins, CI/CD, Linux
Databases & Cache: MySQL, PostgreSQL, Redis
Testing & Security: JUnit, Mockito, JWT, OAuth2

Achievements & Certifications

Achievements **View Certificates**

- Solved **800+ DSA problems**, achieved **LeetCode Knight** rank, and secured **AIR 660** in CodeKaze.
- Graduated with **B.Tech Honours**; earned an **NPTEL Silver Medal(Top 5%)** and secured **3rd rank at AKTU University**.

Certifications **View Certificates**

- AWS Certified Cloud Practitioner, Microsoft Azure Fundamentals (AZ-900), Azure AI Fundamentals (AI-900), Google Cloud Digital Leader, and Claude Certified Developer/Associate.
