# Abhay Deep

7668307110 abhay14d@gmail.com LinkedIn GitHub LeetCode GeeksforGeeks

## Summary

Software Engineer with 2+ years of experience building scalable Java backend systems using Spring Boot, Microservices, Kafka, and AWS. Skilled in REST APIs, distributed systems, and software engineering best practices.

## Education

**Ajay Kumar Garg Engineering College** **Aug 2020 – Jul 2024**
*B.Tech in Computer Science* ***(8.9 CGPA)*** | ***Graduated with Honours*** *Ghaziabad, Uttar Pradesh*

## Experience

**Accenture** **Jul 2024 – Present**
*Software Engineer* *Pune, Maharashtra*

- Developed **3 Spring Boot microservices** and **30+ REST APIs** for a UK banking client's business and corporate card servicing platform using Oracle Database.
- Developed frontend features using **React** and implemented security using **Spring Security, JWT, OAuth2, and mTLS**.
- Integrated **Kafka** for asynchronous communication across microservices.
- Resolved production issues, optimized API response times, and deployed applications on **OpenShift** using Docker, GitLab CI, and Jenkins.
- Developed unit and integration tests using **JUnit** and **Mockito**, maintaining **85%+** code coverage.

**Newgen Software** **Jan 2024 – Jun 2024**
*Software Engineer Intern* *Noida, Uttar Pradesh*

- Developed backend features using **Java, Spring Boot, and SQL** for a Saudi Arabian banking client.
- Refactored monolithic modules into microservices, improving response time by **25%**.
- Designed and documented **REST APIs** following OpenAPI standards for service integration.
- Contributed to **AWS-based deployments** and integration of microservices.

## Projects

**MediShop** | *Java, Spring Boot, React, MySQL, AWS, Docker, Kafka, Generative AI* | GitHub

- Built a distributed medical e-commerce platform with **2 Spring Boot microservices** exposing **20+ REST APIs**.
- Implemented **Spring Cloud Gateway**, **Eureka**, **Config Server**, **JWT authentication**, and **Redis caching**.
- Integrated **Kafka** for event-driven communication and automated deployments using Docker and GitHub Actions CI/CD.

**SpecIt** | *Java, Spring Boot, React, PostgreSQL, Docker, AI APIs*

- Engineered an **AI-powered spec-driven development platform** that converts feature specifications into structured execution plans and parallelizable subtasks.
- Designed a multi-stage workflow (**Spec → Plan → Tasks**) to automate feature breakdown, task generation, and development planning.
- Built reusable AI skills/prompts and implemented task orchestration, REST APIs, and persistence using **Spring Boot, PostgreSQL, and Docker**.

## Technical Skills

**Languages:** Java, C++, JavaScript, SQL, Python
**Backend:** Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate
**Architecture:** Microservices, Distributed Systems, Kafka, Redis, REST APIs, OpenAPI, Swagger, Design Patterns, LLD/HLD
**Cloud & DevOps:** AWS, Docker, OpenShift, Git, GitLab, GitHub Actions, Jenkins, CI/CD, Linux
**Databases & Cache:** MySQL, PostgreSQL, Redis
**Testing & Security:** JUnit, Mockito, JWT, OAuth2

## Achievements & Certifications

**Achievements** **Certificates**

- Solved **800+ DSA problems** , **LeetCode Knight** and secured **AIR 660** in CodeKaze.
- Graduated **B.Tech with Honours**; ranked in the **Top 5%** nationwide in NPTEL IIT Madras examinations and received a **Silver Medal** for securing 3rd rank in AKTU University.

**Certifications** **Certificates**

- **AWS Certified Cloud Practitioner**, **Microsoft Azure Fundamentals (AZ-900)**, **Microsoft Azure AI Fundamentals (AI-900)**, **Google Cloud Digital Leader**, **Claude Certified Developer/ Associate**
